

Christa McAuliffe PTO and Devcon Security are partnering to offer a FREE basic security system for friends and family of the school with a \$100 referral credit going to the PTO for every location that signs up for monitoring. I have 2 children that attend Christa McAuliffe and I feel fortunate to be able to offer this to the friends and families of the school as well as the opportunity to help the PTO. We have used this program in preschools and public schools with great success, it is a nice way to incorporate something that families have talked about getting or already have in their homes and have it benefit the school that their children attend.

How it works:

We will install a basic security system monitored over a landline at **no charge** for equipment or installation with a signed monitoring contract. A \$100 referral check will be created for every system and presented to the PTO as they arrive.

If there is an **existing security system** in the home (**being monitored or not**) we can usually use that existing equipment and offer a savings on what you are currently paying in monthly monitoring. This will also result in a \$100 referral to the PTO.

Please feel free to call me on my cell phone with any questions.

Thank You,

Ryan Hercek
